IT SERVICES AND SOLUTIONS

# Introduction

Tawo Mobile Technologies (TMT) is a leading provider of innovative IT, security, and software solutions in Ghana.

Driven by a vision to connect Africa through technology and innovation, TMT delivers reliable systems that empower businesses, secure environments, and simplify operations.

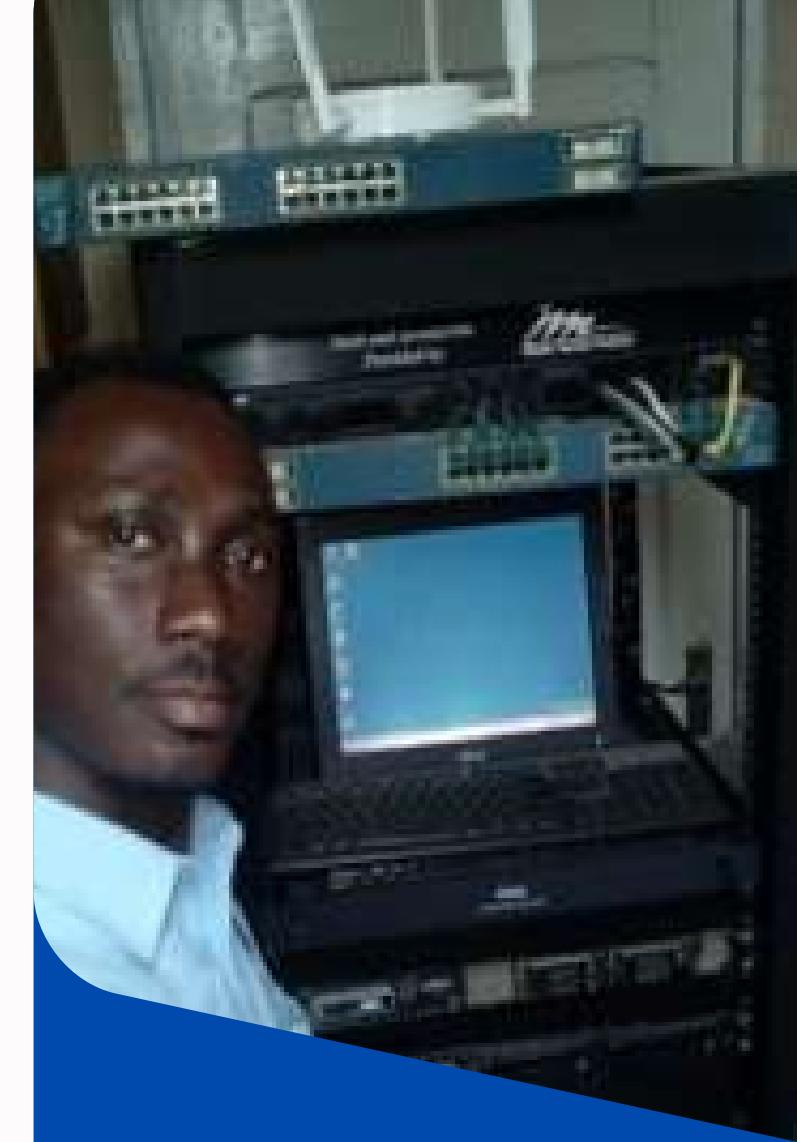

# About Us

Founded in 2007, Tawo Mobile Technologies (TMT) has grown into a trusted provider of high-quality IT, networking, and security solutions across Ghana, with expertise drawn from both Ghana and the USA. We recognized the urgent need for secure, stable, and reliable data and voice networks for residential areas, businesses, government institutions, and retail environments — and we built our services to meet that need.

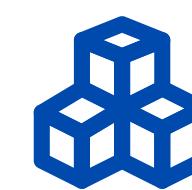

With the rising demand for safety and efficiency, we provide cutting-edge security systems that are tamper-proof, easy to use, and accessible from anywhere in the world. Whether at home or in the office, our solutions ensure that clients can monitor and protect their environments in real time, directly from their smartphones, tablets, or computers

*Beyond security, TMT delivers advanced networking, television, and sound system installations tailored to client needs. As accredited installers of some of the most reliable international technology brands, we combine premium products with professional service. This confidence in our solutions allows us to offer a two-year warranty and one year of free maintenance — unmatched in the industry.*

# MISSION

To provide innovative, reliable, and cost-effective IT solutions, enterprise applications, and software that empower our clients to succeed.

## Vision

To make world-class IT solutions and services accessible and affordable nationwide, through sustainable and scalable delivery.

## Innovation

We continuously explore new technologies and creative ideas to deliver smarter, more efficient solutions that meet the evolving needs of our clients.

## Creativity

We approach every project with originality and insight — crafting unique solutions that set our clients apart in a competitive digital landscape.

# Goals

To provide innovative, reliable, and affordable IT solutions that enhance connectivity, security, and productivity across Ghana and Africa.

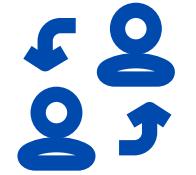

## Expand Reach

### Objective 01

Make world-class IT and software services accessible through scalable and sustainable delivery.

## Drive Innovation

### Objective 02

Continuously improve products and services to meet global technology standards.

## Strengthen Security

### Objective 03

Offer trusted networking, surveillance, and system integration solutions for safer, more efficient operations.

## Ensure Growth

### Objective 04

Build lasting client relationships and promote sustainable business development.

# Project Timeline

Our project implementation follows a structured, step-by-step approach to ensure timely delivery, quality assurance, and client satisfaction.

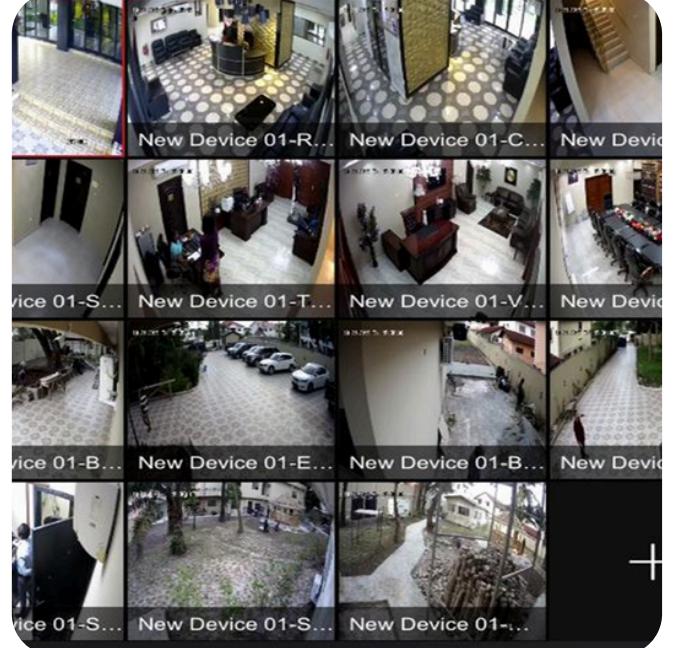

# Our Services

## Adinkra Software & Enterprise Solutions

TMT provides innovative enterprise software and security system solutions tailored to diverse industries. Our services support:

- Retail and restaurants
- Residential and hospitality sectors
- Banks and financial institutions
- Government departments
- Educational and healthcare facilities
- Automotive and construction industries

## Security & Surveillance Systems

Our advanced security solutions protect lives and property with modern surveillance, alarm, and access systems — offering reliable on-site and remote monitoring for peace of mind

- Advanced CCTV and IP camera systems
- Access control and biometric time attendance systems
- Burglary and intruder alarm systems
- Fire alarm systems

## Networking & IT Infrastructure

We provide reliable and high-speed networking solutions that ensure smooth data sharing, communication, and connectivity across offices, hotels, and institutions. Our team designs and maintains systems that keep your business running efficiently.

- Local Area Network (LAN) design and installation
- Computer system setup and configuration
- Structured cabling support and management

## Communication & Audio-Visual Solutions

We deliver smart communication and entertainment systems that enhance convenience and engagement in homes and businesses. From intercoms to sound systems, we make communication seamless and sound experiences exceptional.

- Analogue and VoIP intercom systems
- Sound system installation services
- Queue and entrance management systems

## TV & Display Installations

We specialize in installing modern display systems for entertainment, advertising, and corporate use. Our team ensures crystal-clear visuals, strong signal connections, and professional setup for any environment.

- Television, projector, and display screen installations
- Digital boxes, antenna, and satellite dish setup

# Statistics

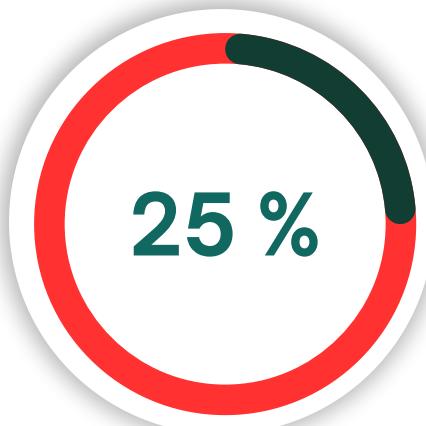

# Statistics

At Tawo Mobile Technologies, our consistent growth reflects our dedication to quality, innovation, and customer satisfaction. Our expanding client base and repeat partnerships demonstrate the trust and value our services deliver.

## New Customers

Each year, we attract new clients across industries, from hospitality and retail to government and corporate sectors, who rely on us for secure, efficient, and modern IT solutions.

## Recurring Customers

A majority of our clients return for additional projects and system upgrades. This loyalty highlights the lasting relationships we build through dependable service, technical excellence, and ongoing support.

# Financial Report

## Revenue Growth

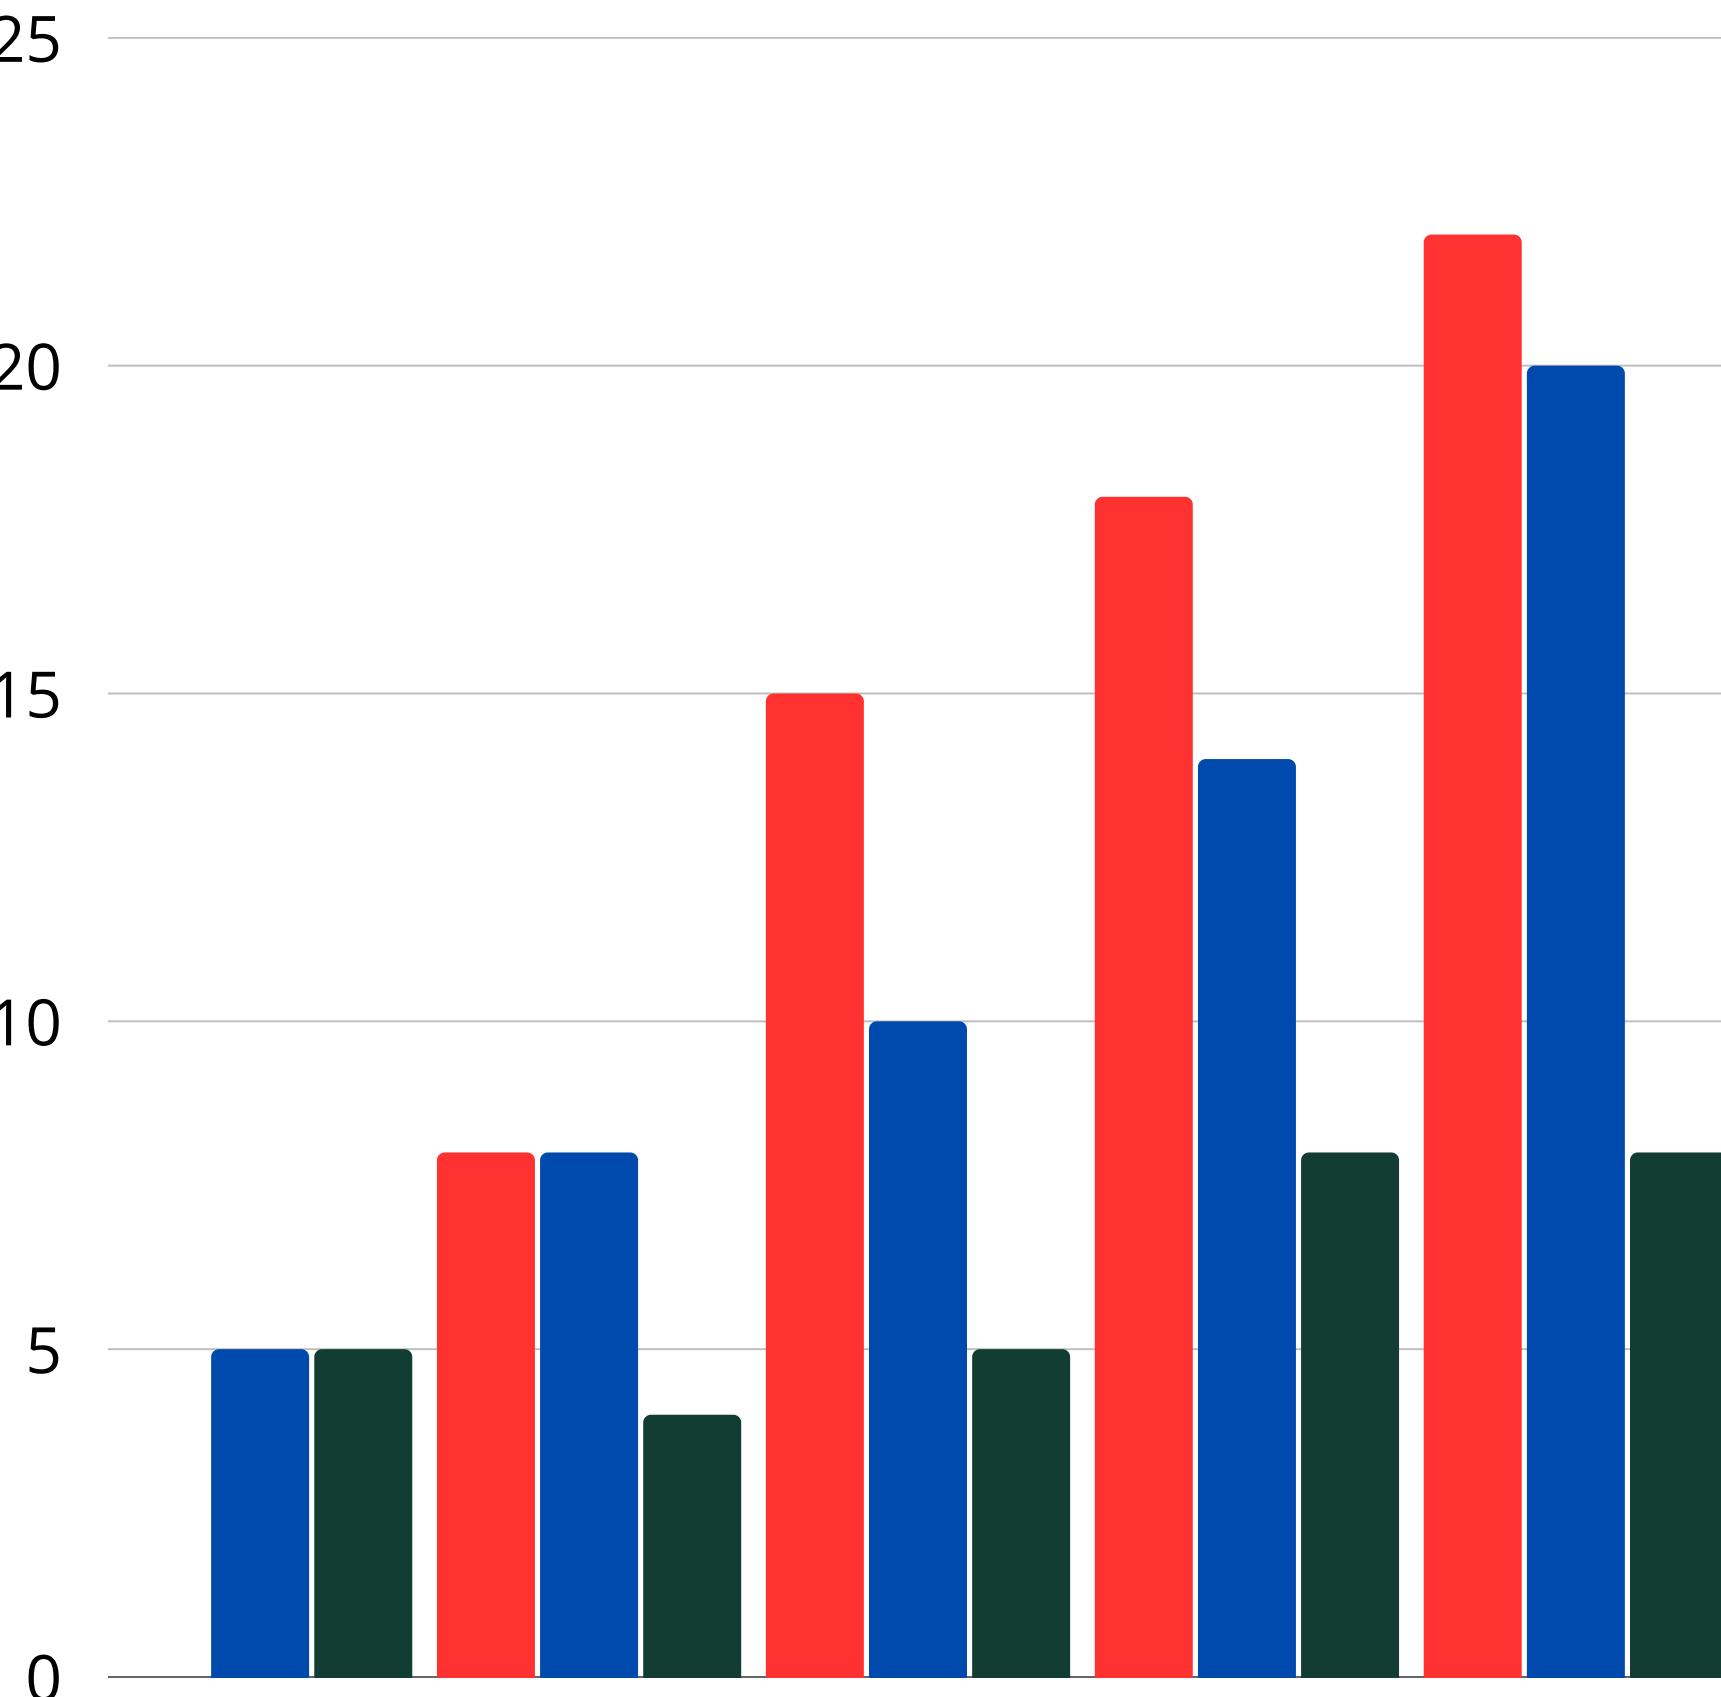

Our annual revenue has grown steadily through recurring service contracts, software licensing, and new installations across various industries including hospitality, retail, and corporate sectors.

## Return on Investment

Every TMT project delivers real value — improving efficiency, reducing costs, and boosting reliability. Our innovative IT and security solutions ensure lasting performance and measurable returns for clients.

## Customer Satisfaction

We prioritize customer satisfaction through reliable service, quality products, and strong after-sales support. Our dedication has earned long-term trust and repeat partnerships across industries.

# Our Team

Our team's expertise spans software development, computer and internet security, marketing, graphic design, and business development, enabling us to deliver world-class technology solutions with innovation and excellence.
